OLIMP

- It separates Macedonia from Thessaly.
- The height of the highest peak of Mitikas is 2918 m above sea level.
- The massif of Olympus is located between the valleys of two rivers - Pinios and Aliakmon.
- In Greek mythology, Olympus was considered to be a mountain of Gods, ruled by Zeus.
- to rent a bed in the shelter costs 13 euros. There are three routes each lasting on average 3 hours

METEORS

- Sandstone and conglomerate rock massif, located in central Greece near the city of Kalambaka.
- Since the 11th century, monasteries started to be established here, which now constitute a picturesque tourist landscape.
- Currently there are 6 monasteries and all of them are open to the public.
- The monastery has a church and museums with old books, paintings and letters.

PORT IN PLATAMONAS

- A place in Greece located in Macedonian Thrace, in the region of Central Macedonia, at the foot of Mount Olympus.
- Platamonas Castle was built in the 11th century by the Crusaders.
- Platamonas is also a tourist resort surrounded by olive groves with a gently descending sandy beach.
- to rent a bed in the shelter costs 13 euros. There are three routes each lasting on average 3 hours
